Dear Mr. Kapoor,

Thank you so much for your help throughout this whole process and for all of your feedback. We could not have completed this project without you and thank you for everything. Through your help we learned some valuable lessons such as the importance of getting a functional application in the early stages and how to improve our communication skills when working in a team.

Our submission is composed of four parts:

1. Final Presentation video - <https://youtu.be/MvxfDVOglzl>
2. The PDF of our Project Documentation is attached to this email
3. Project Code is provided through a GitHub repository and can be viewed here <https://github.com/sofiacelestrin/Balance-Buddy>
